DHANUSH C K

SOFTWARE DEVELOPER

Kannur, Kerala, India | contact@dhanushck.in | linkedin.com/in/dhanushck | github.com/dhanush-ck | dhanushck.in

PROFESSIONAL SUMMARY

Web Developer with hands-on experience designing and implementing responsive interfaces, developing web applications, and optimizing user experiences. Experienced in collaborating with teams, managing technical-fest web initiatives, delivering practical software solutions, and debugging complex issues. Strong foundation in JavaScript, React, Django, Python, Firebase, SQL, Git, and Linux, with a focus on scalable solutions, automation, and continuous improvement.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python, MySQL
Web: HTML, CSS, React, Django, WordPress, SEO
Tools & Platforms: Git, GitHub, Firebase, Figma, Linux, VS Code
Core: Responsive Design, Debugging, Problem Solving, UI Development, Database Management, Team Collaboration

EXPERIENCE

Frontend Developer Intern — Cognifyz Technologies | Feb 2026 – Mar 2026

- Designed and implemented responsive frontend interfaces using Tailwind CSS, improving consistency across screen sizes.
- Developed and optimized a reusable UI system, reducing repetitive styling and improving maintainability.
- Collaborated with the development team to troubleshoot interface issues and deliver assigned features within deadlines.

Frontend Developer Intern — CODEXINTERN | Dec 2024

- Designed and delivered a React-based website with reusable components and responsive layouts.
- Implemented interactive frontend functionality and optimized the interface for usability and maintainability.
- Collaborated with the team to translate requirements into working web features and resolve implementation issues.

EDUCATION

Master of Computer Application | 2026 – Present
College of Engineering, Trivandrum — APJ Abdul Kalam Technological University
Bachelor of Computer Application | 2023 – 2026
Kodiyeri Balakrishnan Smaraka Government College, Thalassery — Kannur University

PROJECTS

Gradia Vision — Designed and implemented a smart academic platform that tracks student performance, predicts future scores, and delivers personalized guidance through analytics and a mentor bot.
Technologies: Django, Python, JavaScript, HTML, CSS, Scikit-learn, pdfplumber
Vijñana Website — Designed, developed, and launched static websites for the 2025 and 2026 college technical fest. Managed registration-focused functionality and event information.
Technologies: HTML, CSS, JavaScript, Firebase

ACHIEVEMENTS

- Graduated as Class Topper.
- Secured 1st place in Fast Typing, Coding Competition, Blind Coding and Web Designing, and 2nd place in Debugging Contest at Kodiyeri Balakrishnan Smaraka Government College, Thalassery (Jan 2026).
- Secured 1st place in Cipher Up debugging contest at St. Thomas College of Engineering & Technology (Apr 2025).
- Secured 1st place in Decryption and Blind Coding, and 2nd place in Fast Typing and Coding Competitions at Kodiyeri Balakrishnan Smaraka Government College, Thalassery (Feb 2025).

LEADERSHIP & ACTIVITIES

- Campus Lead, µLearn — Led and coordinated the technical-fest team, collaborating with members to plan and execute technical events.
- Technical Fest Organizer — Designed and delivered a debugging contest under the µLearn organization, managing event execution and participant coordination.
- Actively participated in technical events and competitions, demonstrating problem solving, debugging, coding, and web-development skills.
